ATTACHMENT TO DECEMBER 2011 DMR MA0028193:

Since July 2011, Wheelabrator Saugus has worked with various regulatory entities to obtain a permit to repair the damaged fish return line. A summary of such actions is listed below:

- On July 6, 2011, submitted to the Town of Saugus Conservation Commission an NOI for work associated with the repair of the fish return pipe, prepared by O'Reilly, Talbot & Okun, including a scope of work prepared by Substructure, Inc.
- On July 27, 2011, the Department of Marine Fisheries recommended a timing restriction of Feb 15-Sept 30. Based on the foregoing, Wheelabrator Saugus has initiated the permitting/planning to implement a permanent solution to repair the fish return pipe (in lieu of the temporary solution that was proposed in the July 6, 2011 Notice of Intent and discussed during a July 20th Town of Saugus Conservation Commission hearing).
- On August 29, 2011, a revised NOI was submitted to the Saugus Conservation Commission and to the MA DEP.
- On August 29, 2011, an Environmental Notification Form (ENF) was submitted to the EOEEA/MEPA Unit.
- On September 8, 2011, a 401 Water Quality Certification was submitted to MA DEP.
- On September 14, 2011, Wheelabrator attended the Saugus Conservation Commission hearing. The chairman asked that Wheelabrator postpone its presentation of the revised NOI until closure of Sept. 21st Massachusetts Environmental Policy Act (MEPA) unit session.
- On September 14, 2011, Wheelabrator submitted a 401 Water Quality Certification (WQC).
- On September 21, 2011, the MEPA unit held a consultation session at Wheelabrator to receive advice and comments from agencies, officials, and citizens.
- On October 5, 2011, Phil DiPietro, MA Department of Environmental Protection (DEP), performed an on-site inspection and review of the Scope of Work.
- On October 7, 2011, MEPA issued a Certificate on the Environmental Notification Form (ENF).
- On October 25, 2011, Wheelabrator submitted a General Permit Application to the Army Corps of Engineers.
- November 8th – Informational letter sent to the Wampanoag Tribe of Gay Head
- November 22nd – Received correspondence from the Massachusetts Historical Commission indicating that "the project is unlikely to affect significant historic or archaeological resources"
- December 2011 - O'Reilly, Talbot & Okun continues to work with permitting engineer Brian Valiton of the ACOE.
